Registering on B2B Portal

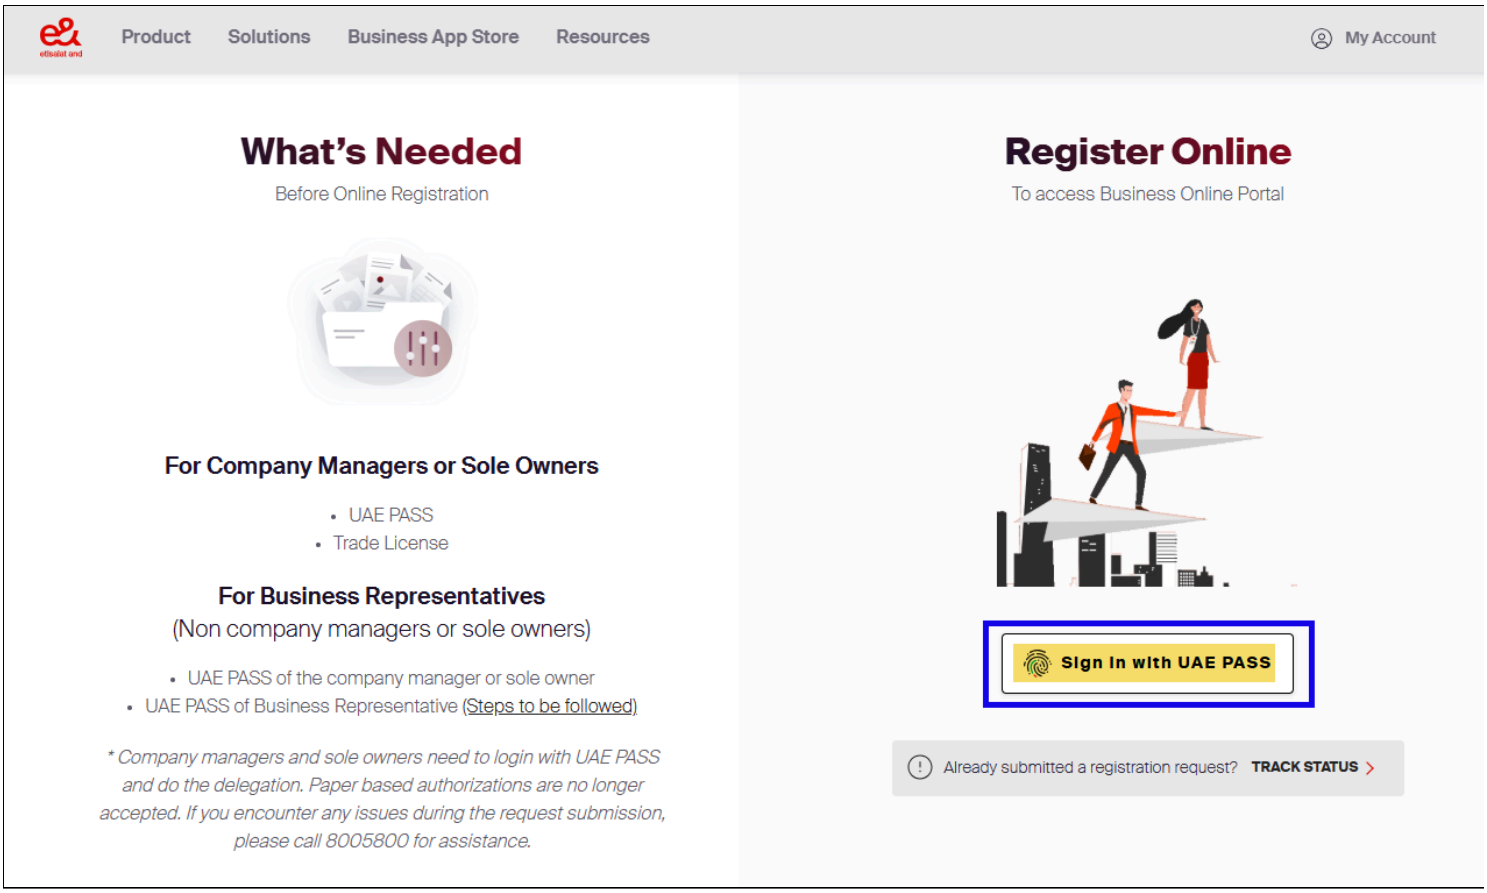

Before logging on and accessing the features of the **B2B Portal**, the Business customer needs to first register on the B2B portal.

To perform a self-registration using UAE Pass, the Business customer must perform the following steps:

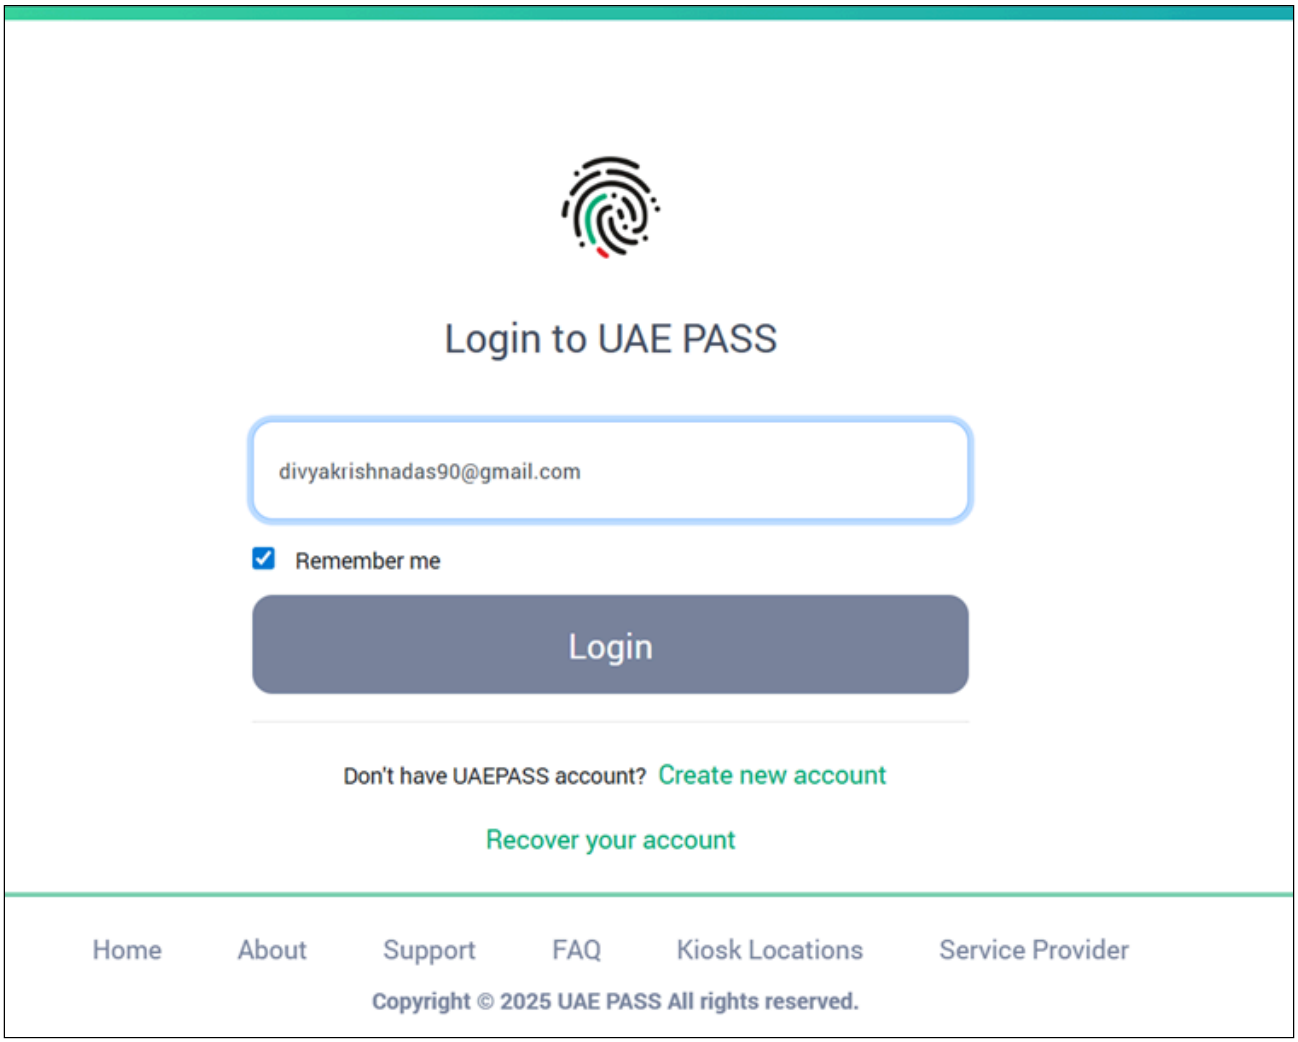

On the **Log-in** screen, click **Register** as shown in the following figure.

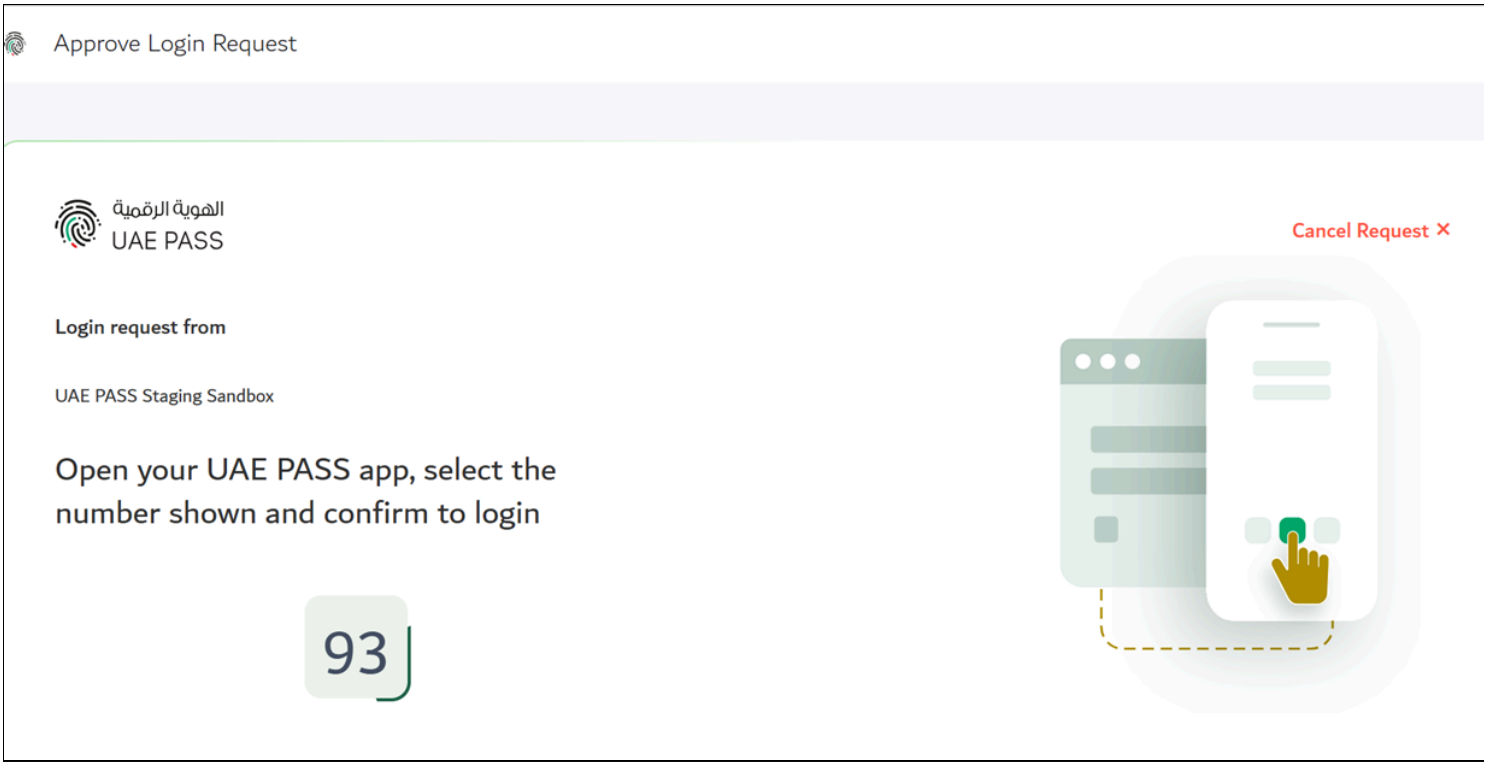

The following screen appears.

Click the **Sign In with UAE PASS** button. The following screen appears. Note that the customer needs to have a UAE Pass account and should be registered on UAE Pass application to continue with this process.

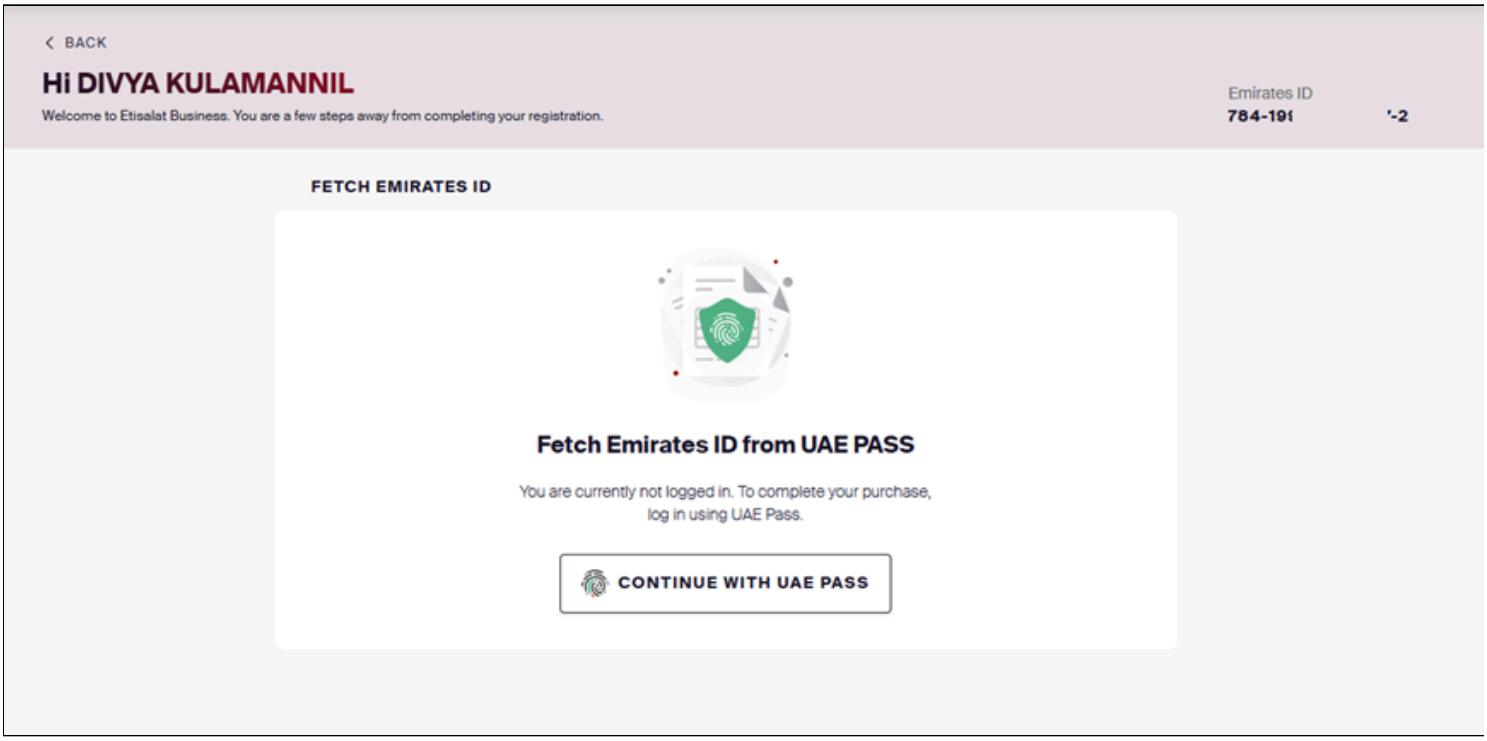

Specify the email / mobile number registered with the UAE PASS app, and tap the **Login** button.

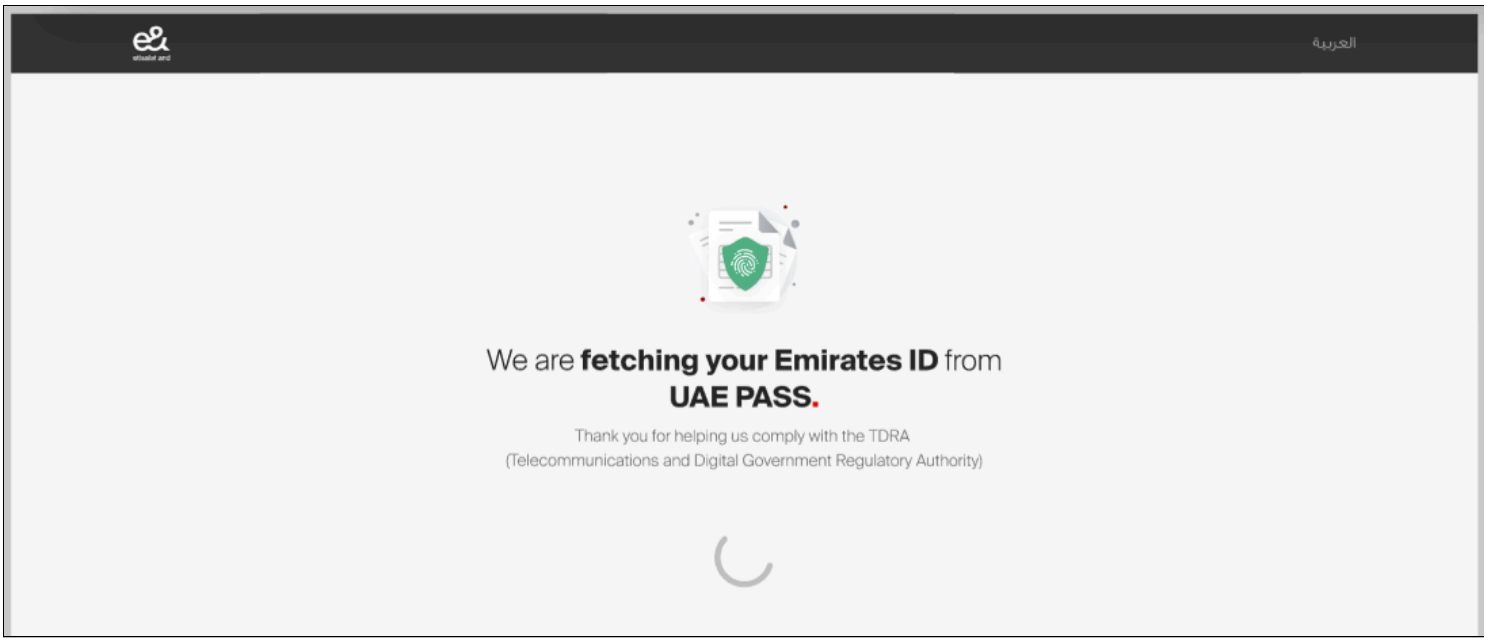

Approve the login request from the UAE PASS app by selecting the displayed number..

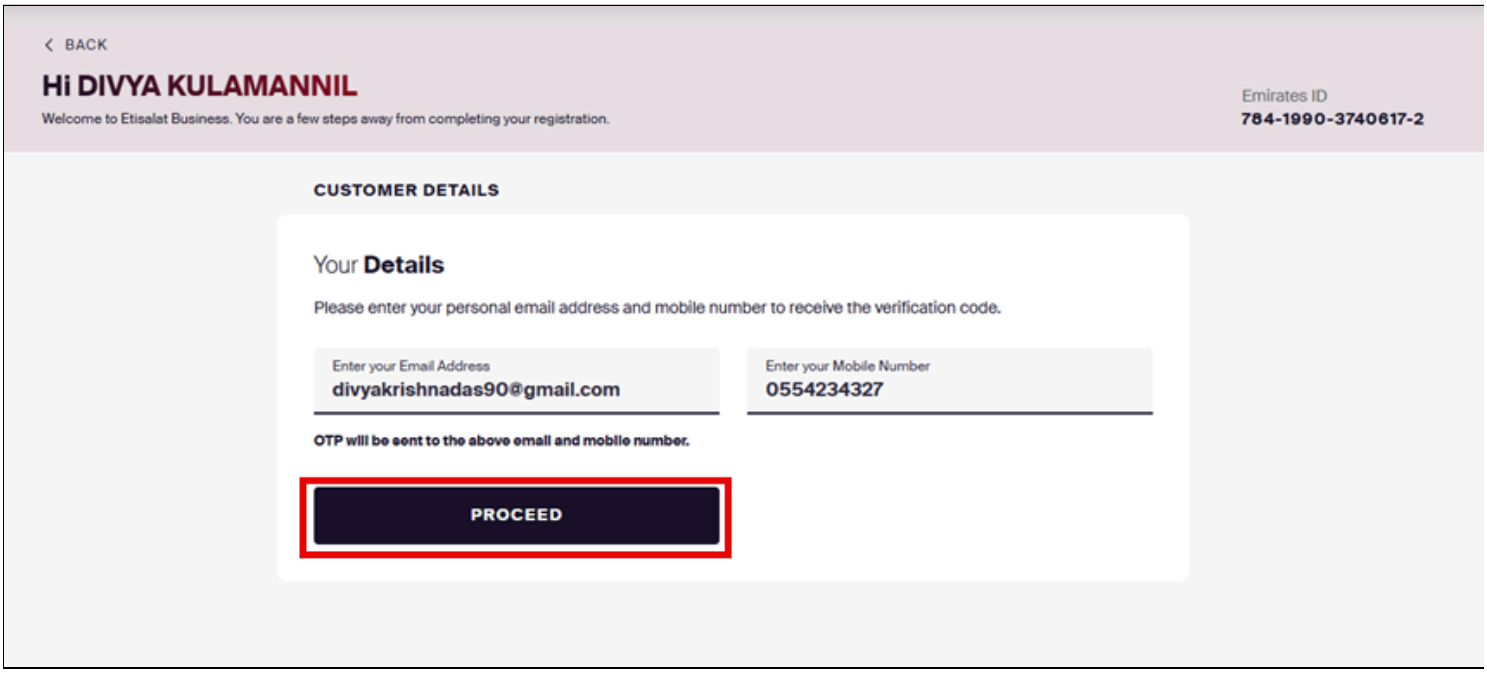

Once approved, the following screen is displayed.

Click the **Continue with UAE PASS** button. The following screen appears.

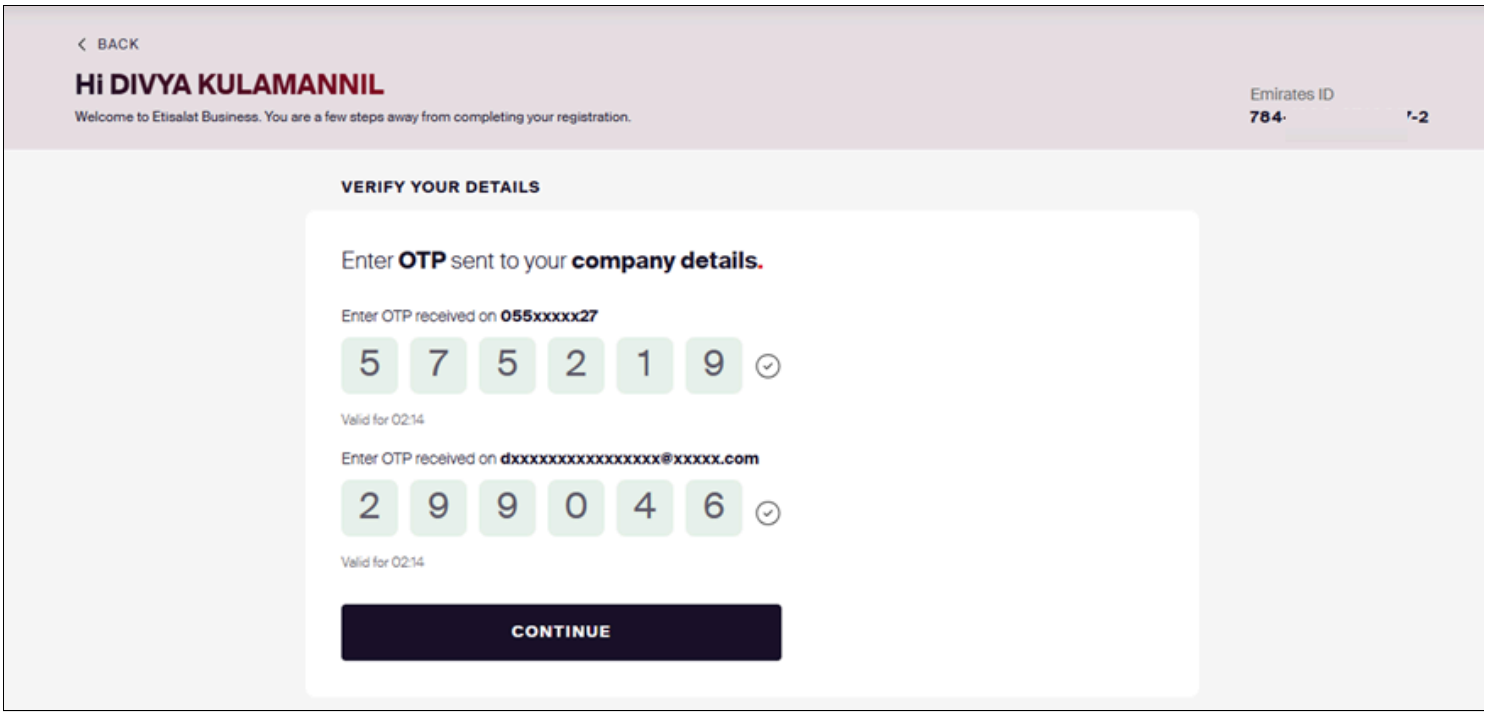

After the EID document is retrieved from UAE Pass, the following screen appears to specify customer details.

Enter the email id of the customer in the **Email ID** field.

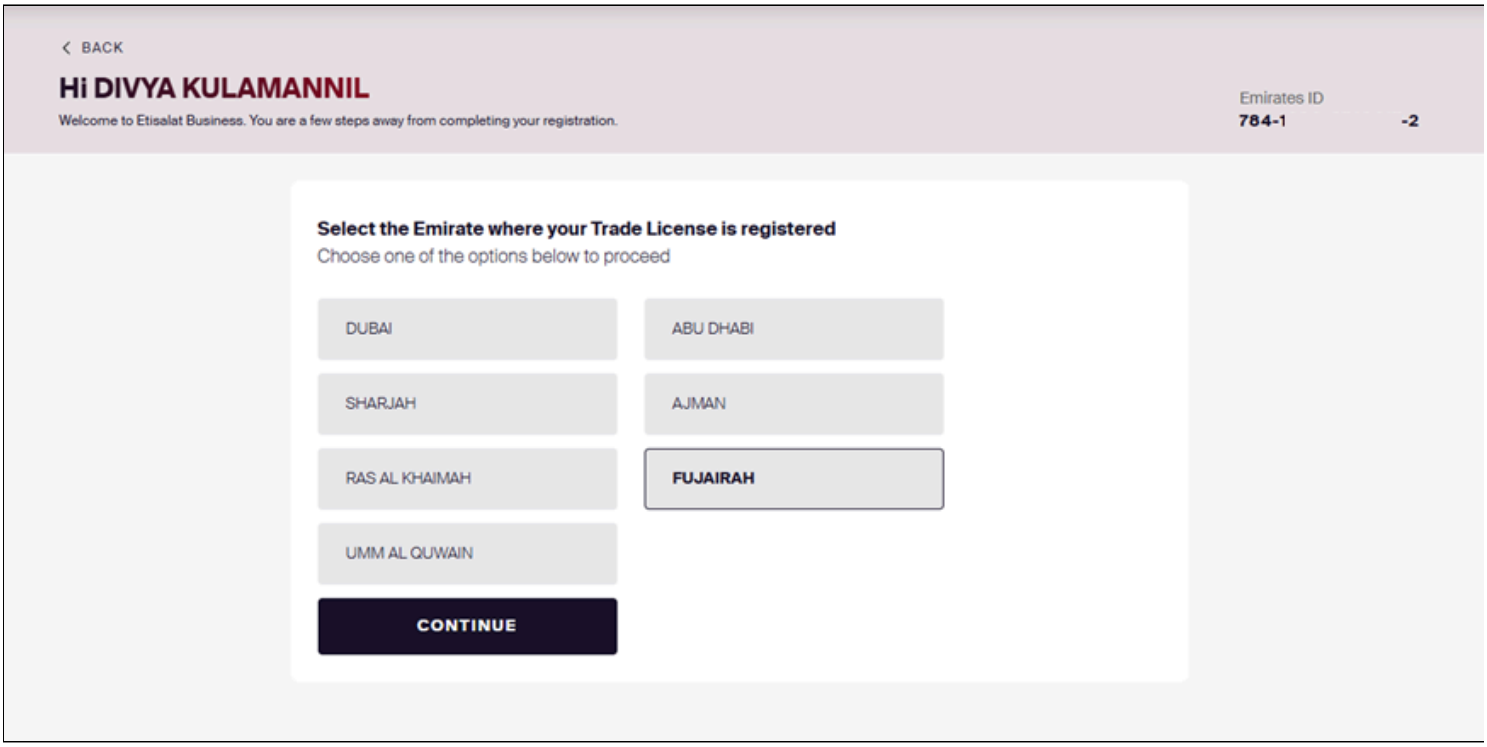

Enter the customer's mobile number in the **Mobile Number** field.

Click the **Proceed** button. The following screen appears to perform the OTP verification.

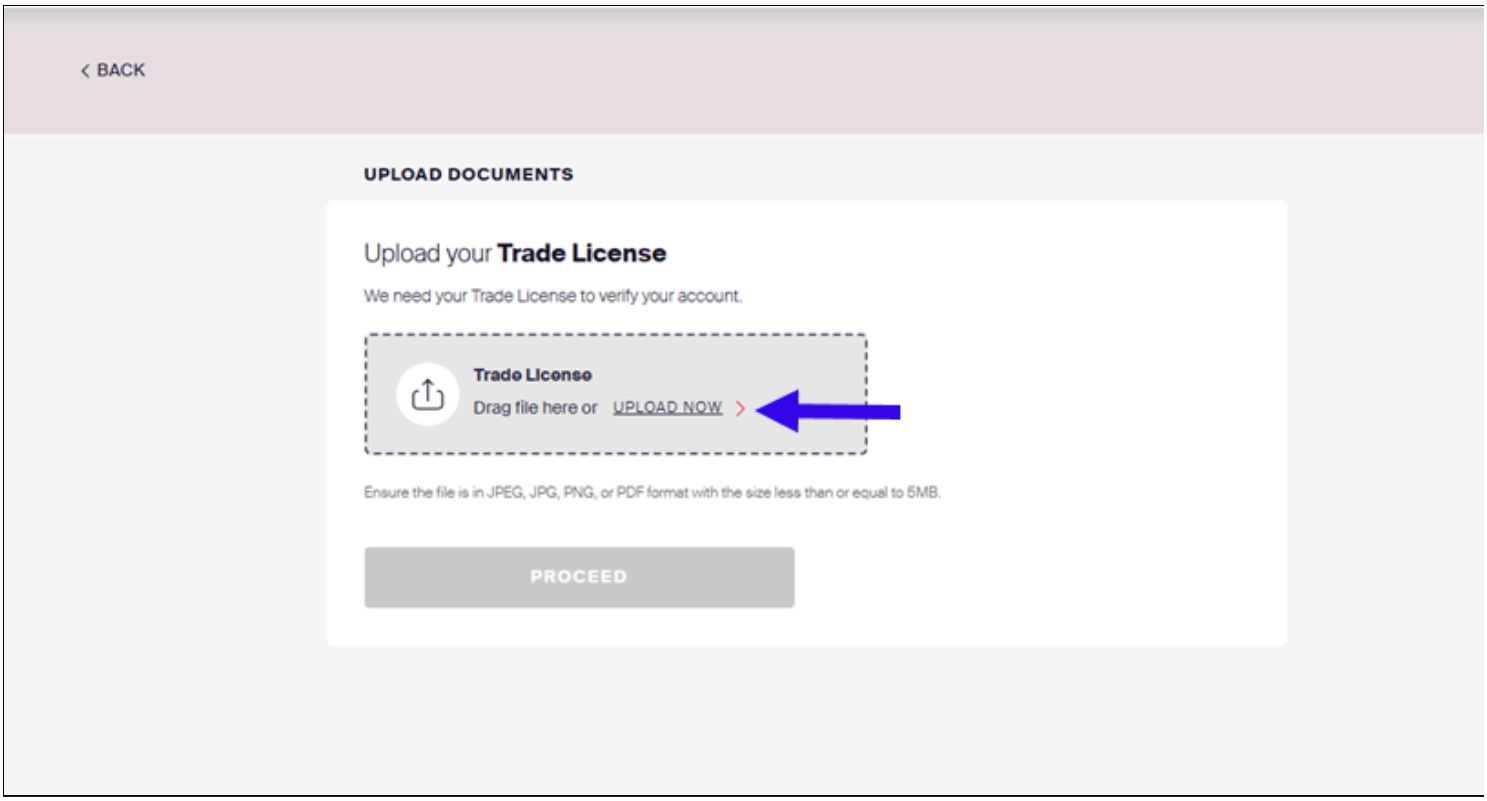

Enter the OTP received through email and mobile phone in the respective fields.

Click the **Continue** button. The following screen appears.

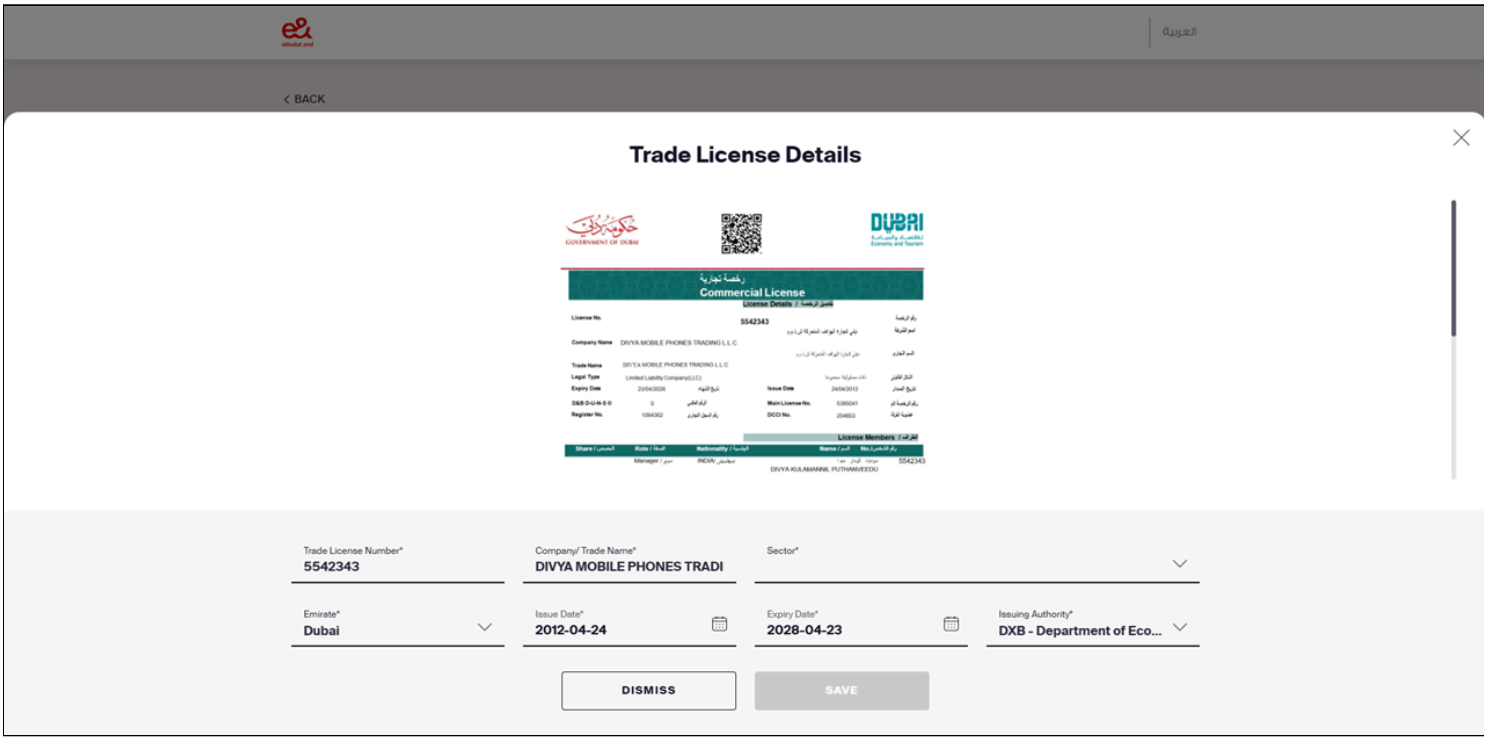

Select the Emirate in which the Trade License is registered.

Click the **Continue** button.

On the screen, click the **Upload Now** button to search and upload the trade license from the local system. The following screen appears.

Note that, the system will automatically perform the OCR check and auto-populate the trade license document number, the issue/expiry number specified in the document etc.

However, if the system fails to perform the OCR check, then, you will need to manually enter the trade license details from the document.

Enter the trade license number in the **Trade License Number** field.

Enter the company name in the **Company/Trade Name** field.

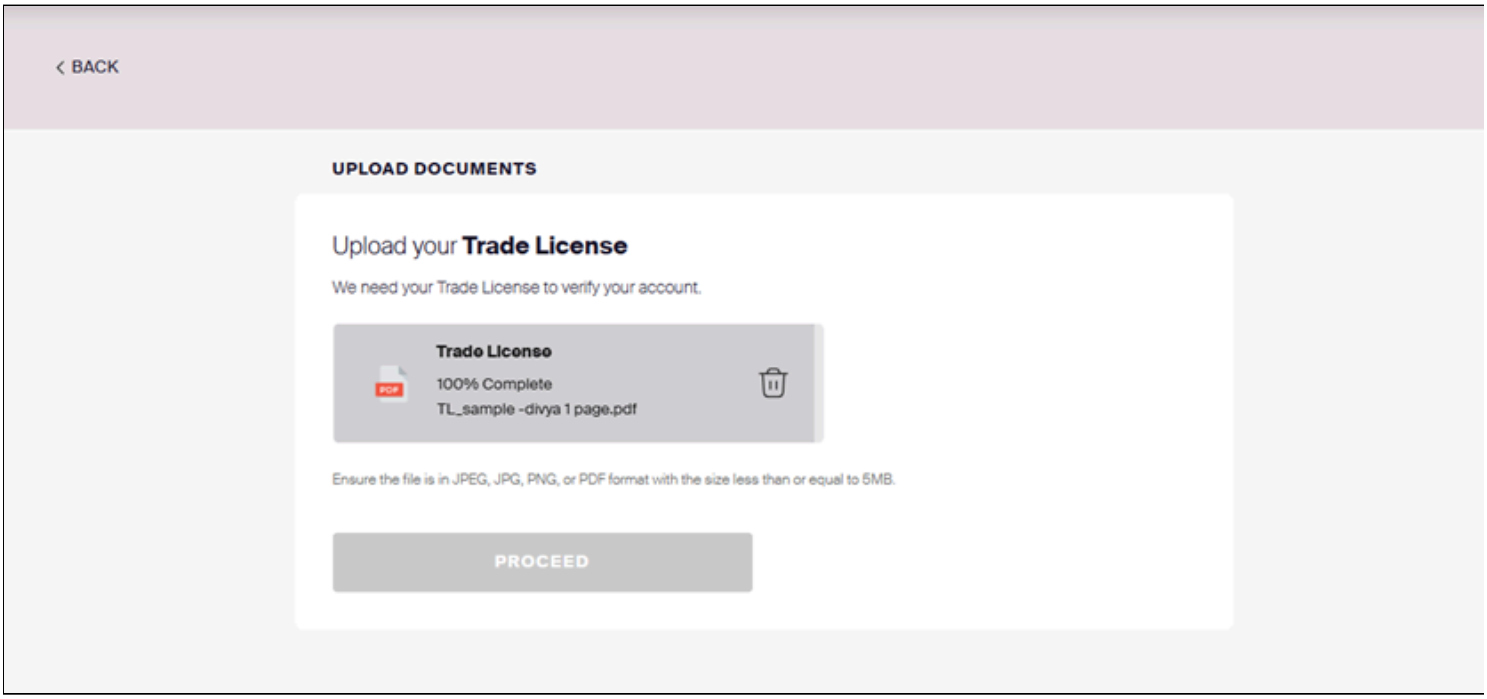

Select the company sector form the **Sector** drop-down list.

Enter the Emirate where the trade license was issued, in the **Emirate** field.

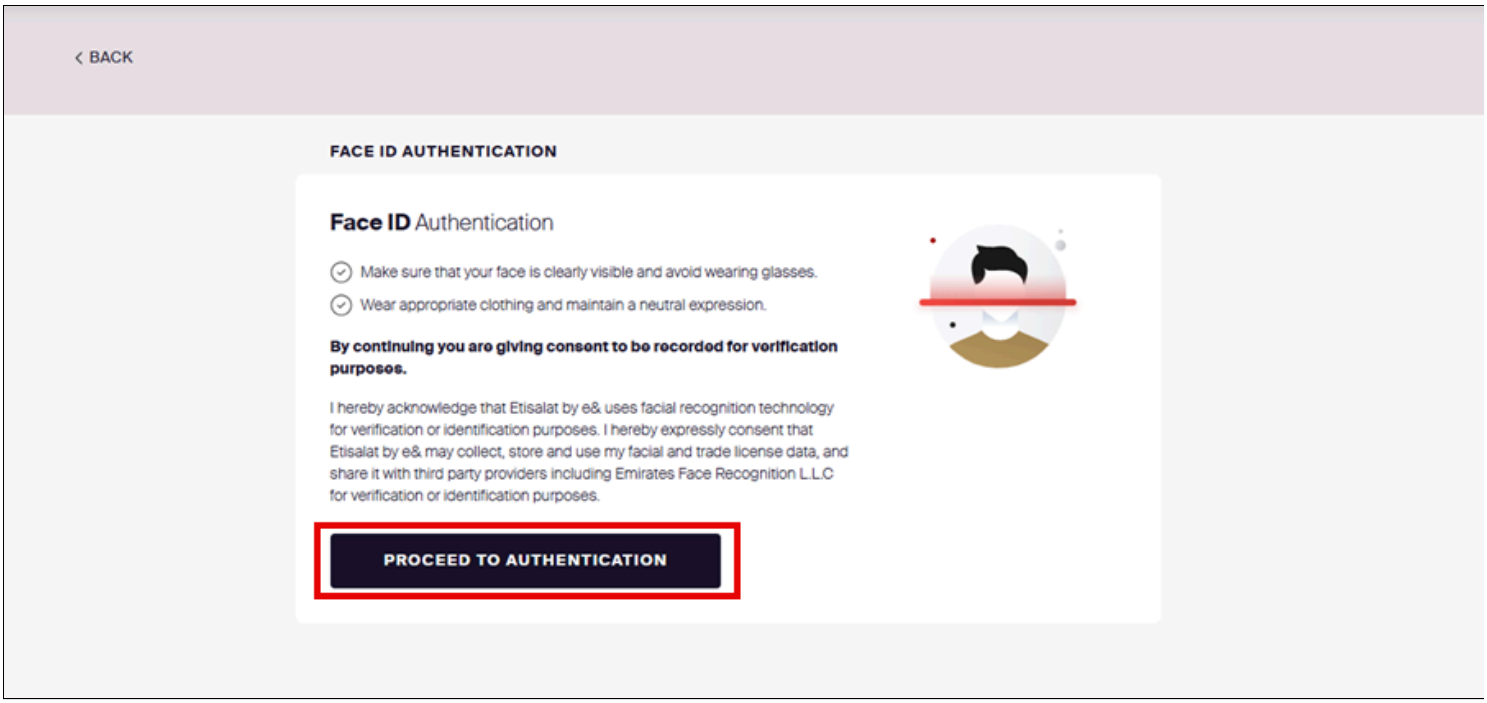

Specify the trade license's **Issue Date** and the **Expiry Date** in the respective fields.

Enter the name of the issuing authority, who had issued the trade license to the company, in the **Issuing Authority** field.

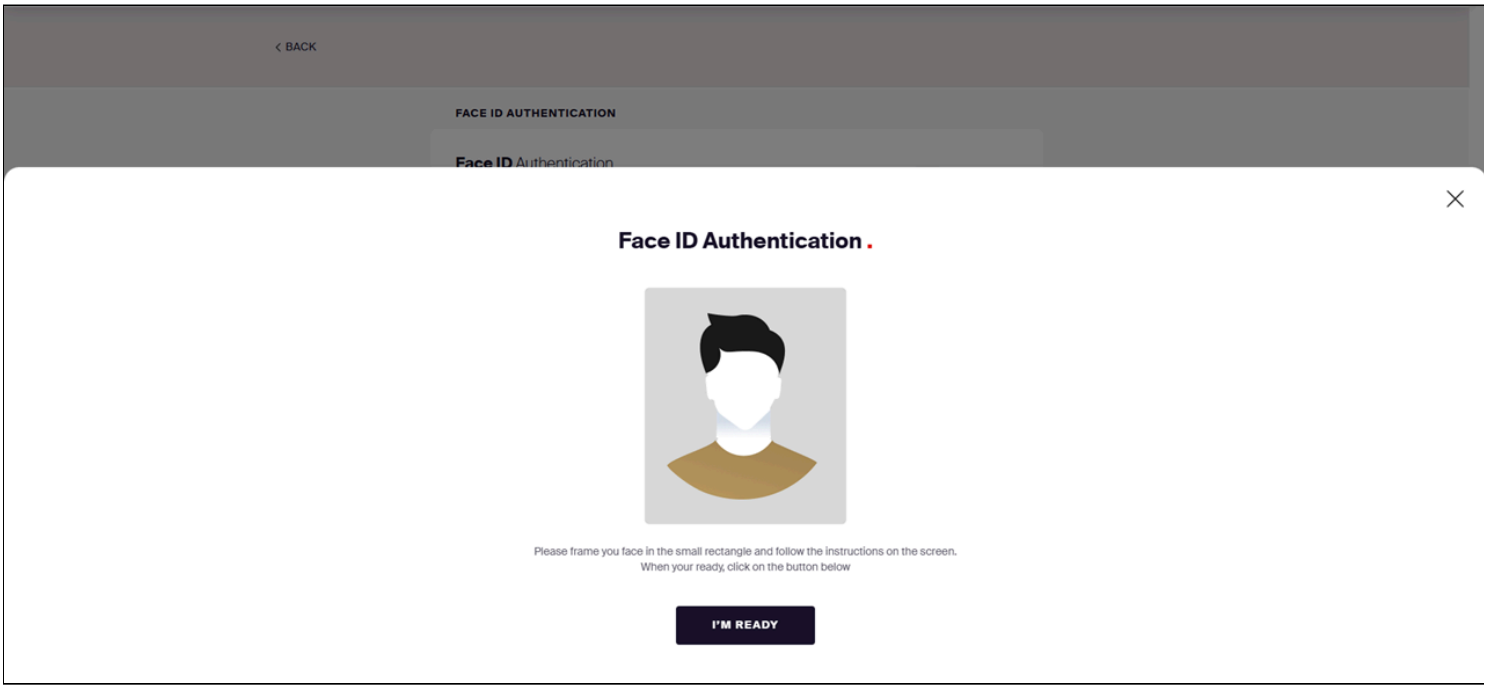

Click the **Save** button. The details of the trade license document are saved, as shown in the following figure.

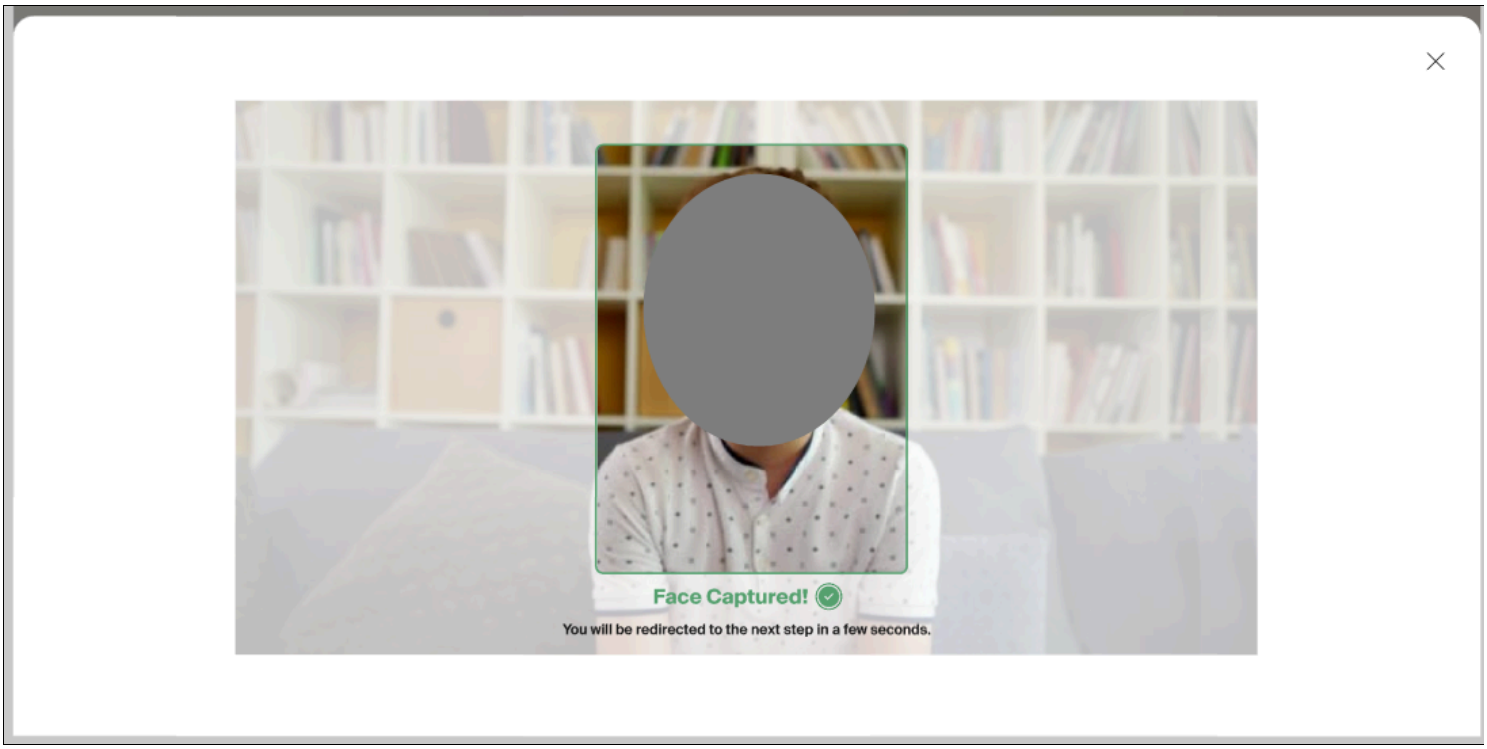

Click the **Proceed** button. The following screen appears for Face ID Authentication.

Read the information displayed on the screen and click the **Proceed to Authentication** button. The following screen appears.

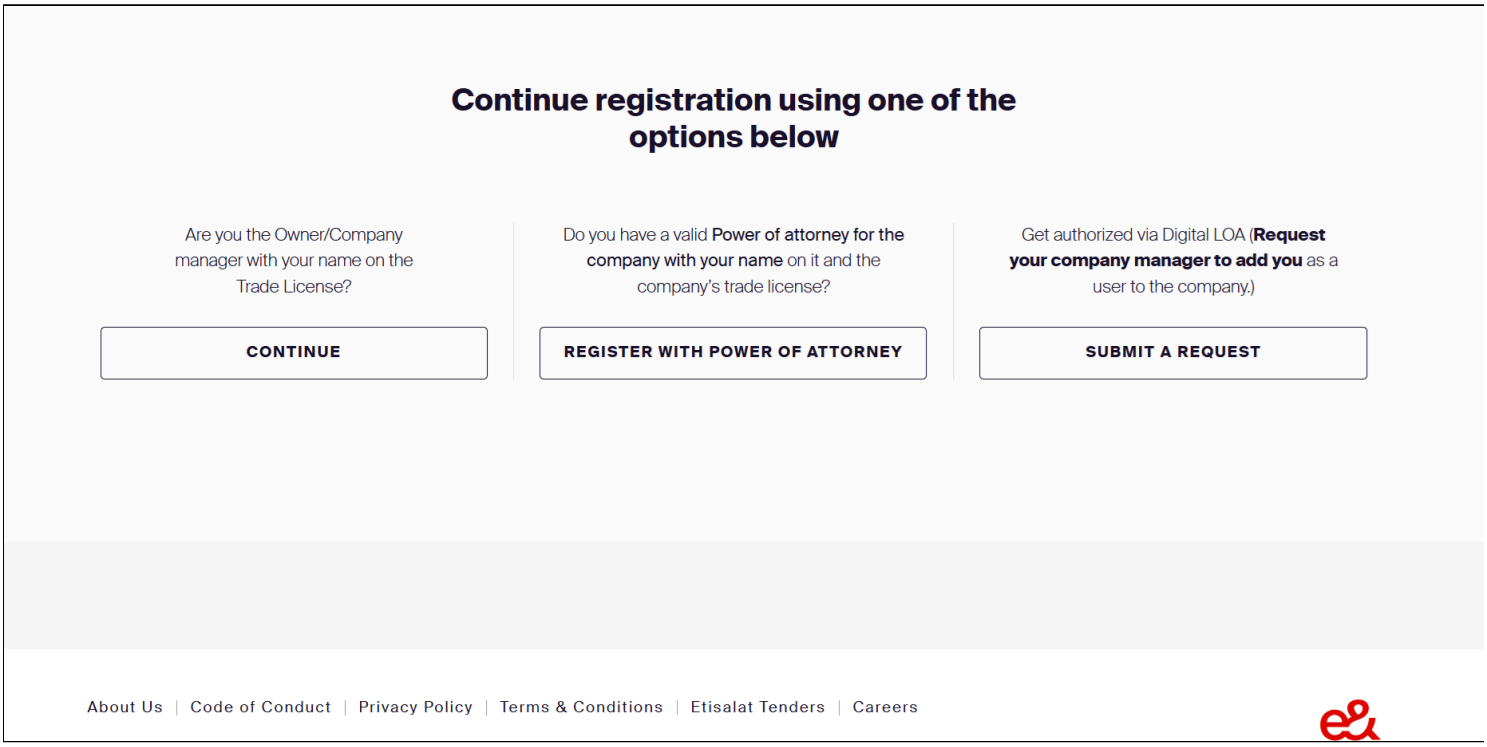

Click the **I'm Ready** button. The following screen appears to capture the photo.

Capture the photo.

Once photo is captured, system now verify and validates the Trade License through OCR.

The system will perform the TL OCR check and allow you to proceed with the any one of the process as mentioned below:

- Owner/Company Manager Name on Trade License – Allows the customer to proceed the request with the uploaded Trade license.
- Register with Power of Attorney - Allows the customer to upload POA and proceed the request.

- Company Representative (Delegate) – A request is sent to the company owner and add the user as **Company Representative (Delegate)** with Letter of Authorization(LOA).
